

Success Story

The Health Improvement Team has developed a working partnership with the Brook Advisory Service in recent months in order to effectively screen young people at Salford College.

The drop in sessions take place weekly at the college (across all campuses) and has been a massive success to date. The Health Improvement Team's weekly contraception distribution figures exceeds two hundred and over the past five weeks we have completed 150 chlamydia screens (50 alone in two hours at Dronefield!). We hope to continue this excellent partnership working, and we look forward to "Healthy Life week" at Salford College next week (9th-13th November) where we will be conducting a comprehensive Screening programme throughout the week in partnership with the Youth Service.

Nik Storey
Health Improvement Officer, Salford

Message to all Screening/Treatment sites

CHANGES TO SUPPLIES ORDERS

The RU Clear office is continually growing this means new members of staff, and a numerous amount of orders for screening supplies coming into the office. For all supplies orders to be handled effectively some small changes are needed.

We have recently updated our RU Clear Supplies order form, the updated version can be found on our website to print off. We would advise you discard any old order forms and only use the updated version.

You will need to use an order form every time you require supplies from the office, if you ring up to order supplies you will be asked to send an order form. Orders will not be taken over the phone a hard copy of your order will be kept at the office which can be chased if anything goes wrong, this also helps us to keep up to date with orders coming in and going out of the office.

For those screening/treatment sites that do not have a fax facility, your order can be sent as an email to us. If you would like to further details about this option please give our admin team a call on 0800 046 1303

Please would you make sure your full site details and site code are on the order form. The site code is very important and if not on the order form may affect the speed of your delivery.

Thank you for your co-operation

The RU Clear Team

Top 20 Screening Sites

1st Sept 09 - 30th Nov 09
